

Item description/product images

**Description****Product description:**

These pedestal bearings made of extruded aluminum profile have six mounting holes and meet all the requirements placed on a housing.

Material:

Aluminium.

Note:

All linear ball bearings with standard installation heights can be combined with the pedestal bearings.

Accessory:

Linear plain bearing 21495-01.

Linear ball bearing with plastic cage 21500.

Linear ball bearing with steel cage 21505.

Stainless steel linear ball bearing 21505-01.

Linear ball bearing, self-aligning 21510.

Linear ball bearing, self-aligning, high load rating 21515.

A
