

Item description/product images

Description

Product description:

Due to their extremely flat design, these grips can be used in very cramped spaces. The fluting around the edge improves gripping.

Material, version:

Grip black hard thermoplastic.
Coating black soft thermoplastic.
Tapped bush brass.
Screw electro zinc-plated steel grade 5.8.

Note:

Knurled screws are available in one grip size with internal and external threads.

On request:

Other screw sizes, screw lengths, versions and colours.
