Description

Material, version:

Form 0 stainless steel with diamond surface comparable with abrasive grit size 100.

Note:

Grippers and inserts are ideal for use in clamping arms, gripping systems, clamping fixtures, clamping jaws and self-aligning pads. The use of grippers allows the transfer of very high torque values and above average grip, even with hard materials and surface irregularities.

Form 0: The abrasive diamond surface is bonded firmly to the base. It is ideally suited to supporting smooth or slippery applications with a minimum of clamping pressure. This allows the diamond particles to get a firm grip on a very small area with minimum damage to the surface.

The diamond surface offers excellent wear resistance.

Grippers and inserts can be fitted in the following self-aligning pads:

Order No. 02003-117X022 up to 02003-936X036

Order No. 02007-110X015 up to 02007-924X100

Order No. 02007-120X030 up to 02007-924X080
